

# Enable Your ArcGIS Online Organization for Metadata

Metadata needs to be enabled so that the Metadata 'button' can be seen, for each item within your ArcGIS Org.

The screenshot displays the ArcGIS Online interface for the item "AtlanticCountyZoning2018". The interface includes a navigation bar with tabs for Overview, Data, Visualization, Usage, and Settings. The main content area shows a map thumbnail, a description, and a list of actions. A red arrow points from the text on the left to the "Metadata" button in the actions list.

Go to Organization  
Settings →  
Items → Metadata.

Check “Enable metadata  
for...”

Select FGDC CSDGM  
Metadata

The screenshot shows the 'Atlantic County Office of GIS' settings interface. The top navigation bar includes 'Overview', 'Members', 'Licenses', 'Status', and 'Settings'. The left sidebar lists various settings categories, with 'Items' selected. The main content area is titled 'Items' and contains two sections: 'Comments' and 'Metadata'. In the 'Comments' section, the checkbox 'Show and allow comments on items in the organization.' is checked. In the 'Metadata' section, the checkbox 'Enable metadata for your organization.' is checked, and the radio button for 'FGDC CSDGM Metadata' is selected. Below the radio buttons, there is a descriptive text: 'Choose the metadata style for your organization. The style controls how the metadata appears and which fields are available for editing.'
