

Request Data:

Select which imagery datasets you would like below. All datasets provided will be at statewide coverage including all relevant project files (metadata, flight paths, all image formats available). Once you have completed your selection, the total file size will be automatically calculated. This will be the minimum required free disk space on your hard drive.

Year	File Type(s)	Total Size	Select
1930	tif, jp2	22.9 GB	
1970	jp2	8.7 GB	
1977	tif, sid	250 GB	
1995	jp2	22.5 GB	
2002	tif, sid	685 GB	
2006	jp2	36.1 GB	
2007	tif, sid	1.78 TB	
2010	tif, sid	114 GB	
2012	tif	1.67 TB	
2015	tif	1.67 TB	
2017	sid	7.09 GB	

TOTAL: _____ **GB** (or _____ **TB**)

YOUR EXTERNAL HARD DRIVE MUST HAVE AT LEAST THIS MUCH TOTAL DISK CAPACITY!

Please Note:

- This order form must be filled out, printed, and included with your hard drive for us to begin processing your data request.
- Data will be provided at the full product extent (i.e. no clipping).
- Requests cannot be modified once they are received by NJOGIS.
- For security purposes, all external hard drives received that are not completely empty with the disk newly reformatted will be returned unprocessed. Please follow these steps:
 - Delete all files and folders from the external hard drive.
 - Perform a quick format/erase on the external hard drive.
- Make sure to send along a prepaid shipping label with your package if you want us to mail it back to you. Otherwise, we will assume you will be picking up your order and will email you when it is ready.
- You may not wait on site for your data request to be processed.
- NJOGIS makes every effort to fulfill the request as quickly as possible. However, turnaround time will depend on the number of requests and other workload at NJOGIS; no specific time can be guaranteed.

By signing this form, I acknowledge that I have read and understood this form in its entirety, and have filled it out completely.
