## Request Data:

Select which elevation products you would like below. All datasets provided will be at project coverage including all relevant files (metadata, tiles, derived data, etc.). Once you have completed your selection the total file size will automatically calculated. This will be the minimum required free disk space on your hard drive. Visit [NJGIN](http://njgin.nj.gov) for detailed information about the elevation products listed below.

Project Name	Size	Select
Atlantic, Ocean, Southern Monmouth 2010	274 GB	
Camden 2008	14.3 GB	
Camden/Burlington DEM 2004	3.46 GB	
Camden/Burlington FEMA 2011	228 GB	
Cape May, Cumberland, CAFRA Salem 2008	260 GB	
DVRPC 2015	1.16 TB	
Gloucester 2007	40.4 GB	
Hackensack/Meadowlands 2014	98.6 GB	
Highlands 2006/2007	925 GB	
Hunterdon 2007	24.8 GB	
Mercer 2009	127 GB	
Middlesex 2006	40.7 GB	
Morris DEM 2006	11.7GB	
NE New Jersey, Post-Sandy Supplemental 2014	428 GB	
NGA Northeast 2006/2007	83.1 GB	
NOAA Topobathy 2013/2014	402 GB	
Newark/Trenton DEM 2007/2008	2.31 GB	
Non-CAFRA Salem 2009	92.2 GB

**TOTAL:** \_\_\_\_\_ **GB (or TB)**

**YOUR EXTERNAL HARD DRIVE MUST HAVE AT LEAST THIS MUCH TOTAL DISK CAPACITY!**

## Please Note:

- This order form must be filled out, printed, and included with your hard drive for us to begin processing your data request.
  - Data will be provided at the full product extent (i.e. no clipping).
  - Requests cannot be modified once they are received by NJOGIS.
- x

- x
- x
- x Make sure to send along a prepaid shipping label with your package if you want us to mail it back to you. Otherwise, we will assume you will be picking up your order and will email you when it is ready.
  - x You may not wait on site for your data request to be processed.
  - x NJOGIS makes every effort to fulfill the request as quickly as possible. However, turnaround time will depend on the number of requests and other workload at NJOGIS; no specific time can be guaranteed.
