

February 6, 2015

The upcoming release of the [Taking Care of Business - Site Evaluator 2.0](#) map will replace the current [Taking Care of Business Map - NJHMFA Site Evaluator](#) in mid-February.

The new application does not support Internet Explorer below version 10. The latest versions of other widely-used web browsers such as Chrome, Firefox, and Safari are preferable.

If the current NJHMFA Site Evaluator is important to your work, please acquire a supported browser before March 1, 2015 when the original Taking Care of Business Map will be turned off.

Please [contact us](#) with any questions.
